

Best Winners and Worst Losers

Scatterplot

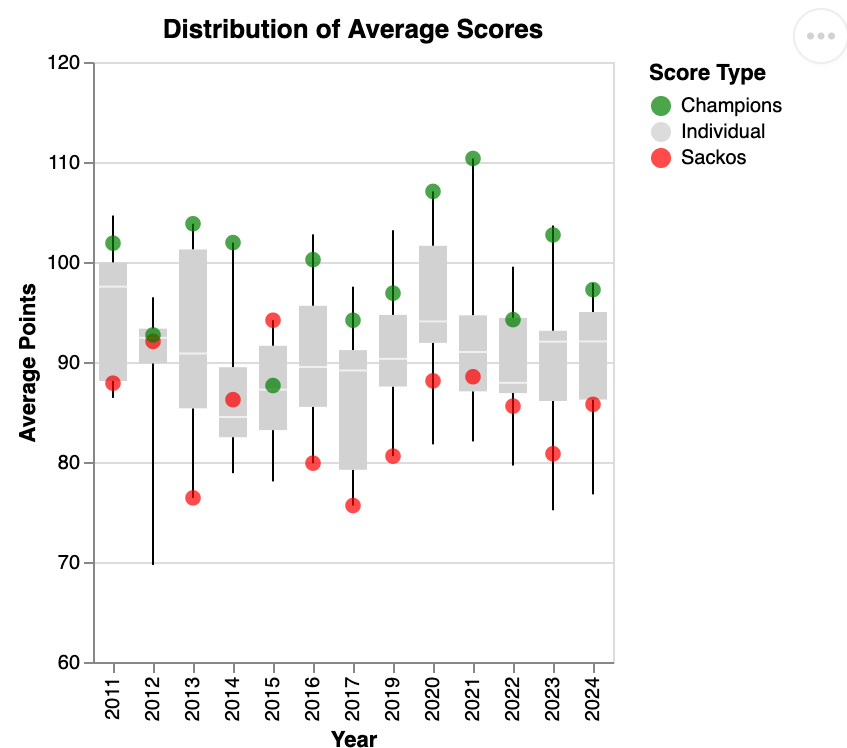

Multiple metrics plotted here. For now, I don't have access to 2018; it should change soon. The scale is from 60 to 120 to spread out numbers a bit better. I've plotted the average score of:

- 1. The champion (green)
- 2. The sacko (red)
- 3. The league overall (blue)
- 4. The league without the sacko nor the champ (orange)
- 5. Every single manager (light grey)

Boxplot

Plotted: box and whisker plot. Champions (green) and Sackos (red) with a bar to designate the distribution of the remaining managers.
